

MINIATURE RESISTANCE THERMOMETERS

flat, 260 °C

Specifications:

Probe type	:flat
Temperature range	:-50 to +300°C
Element type	:Pt100, single
Resistance values and tolerances	:IEC 60751 class B
Recommended maximum current	:5 mA
Minimum insulation resistance	:10 Mohm at ambient temperature with 200 VDC
Wiring system	:2-wire, PTFE covered stranded silver cladded copper wire
Lead length	:1 meter
Sheath material	:stainless steel
Mounting methods	:clamping over 15 mm end sections or sticking with suitable adhesive; (the 15 mm end sections can be cut off if not required)

Ordering code:

MRT-71000
